\*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

Building N-248B is a one-story storage building with a rectangular plan, concrete slab foundation, steel-frame structural system, and a low-pitched gable roof. The exterior is clad with corrugated metal, and a pedestrian entrance appears on the west façade. The building has no fenestration. The south façade of the building was inaccessible during the time of the survey. The building is 3,070 sq. ft. in size.

This building appears to be in good condition.
